1 For Model CO1034 and CO1044 Only: Temporarily install the mounting plate to the junction box.

2 For Model CO1034 and CO1044 Only: Mark the anchor locations through the holes on the mounting plate and remove the mounting plate.

3 For Model CO1034 and CO1044 Only: Drill appropriate sized holes at the marked locations and install the anchors.

4 For Model CO1034 and CO1044 Only: Secure the mounting plate to the junction box and screw the anchors screws into the anchors. **Skip to step 6.**

5 Secure the mounting plate to the junction box.

6 Install the small glass to the upper frame and secure the glass in place using the brackets and screws.

7 Screw the lamps into the sockets. Refer to the label on the lamp socket for Max Wattage information.

8 Install the large glass to the lower frame and secure the glass in place using the clips.

9 Install the lower frame to the upper frame using the frame screws.

10 Connect the fixture to a suitable ground in accordance with local electrical codes.

11 Connect the white fixture wire to the neutral power line wire with a wire nut.

12 Connect the black fixture wire to the hot power line wire with a wire nut.

13 Neatly tuck the wiring into the junction box, place the fixture base onto the mounting plate, and secure it in place using fixture screws.

14 For Wet Locations: Caulk around the fixture base with waterproof construction sealant.
